

UNIgreen Training activity _ Professors /Teaching Staff

Title: Innovative teaching approaches

Location: Modena – Largo Sant'Eufemia 19

Period: June 18-20, 2025

Registration: click on the QR code to register (deadline 11 June 2025)

Although participation to the whole training program is encouraged, it is also possible to select the participation to a minimum of two days (see the registration form)

Objectives of the Training activity

The training activity aims to improve the knowledge of Professors/Teaching staff on innovative pedagogical models and approaches. Organized within the frame of the activities promoted by the UNIgreen Alliance with the collaboration and expertise of the Teaching and Learning Center of Unimore, the course promotes the discussion on the pedagogical practices that traditional universities can adopt to build new approaches characterized by quality criteria as well as by the flexibility requirements expected in new national and international contexts.

A special focus will be also devoted to diversity and inclusiveness approaches.

Day 1

- How to plan and organize University educational courses
- How to transform a traditional teaching approach to a project-based pedagogy (HEPL)
- The Competence-based approach
- Online teaching (didactic and interactive teaching)
- Microcredentials

Day 2

- ECOBI Model
- The role of “Tutors”
- The role of the “instructional designer”
- Multimedia content

DAY 3

- Introduction to Disability: best practices in the Universities
- The “Unimore” experience and specific supports for students
- Understanding disabilities: a comprehensive overview
- Adapting Assessments for Students with Specific Learning Disorders: inclusive strategies for success
- Logic mapping
